Claude AI Job Search Guide

Complete Version

Upload your resume. Let Claude find tailored jobs across LinkedIn, Naukri, Indeed & company pages — in under 2 minutes.

Includes step-by-step guide + exact copy-paste prompt + pro tips

WHAT IS IN THIS GUIDE

Step-by-step setup guide (9 clear steps)

Exact copy-paste Claude prompt — nothing to write yourself

How Claude searches LinkedIn, Naukri, Indeed & more

Pro tips to apply smarter, not harder

SECTION 01

Step-by-Step Guide

Follow these 9 steps exactly. The whole process takes under **5 minutes** the first time.

- 1** Go to claude.ai on your browser or download the Claude app
- 2** Login or sign up — it is free, no credit card needed
- 3** Start a new chat
- 4** Click on the '+' icon (bottom left of chat bar) and turn ON web search
- 5** Upload your resume — PDF format preferred for best results
- 6** Paste the prompt given on the next page into the chat
- 7** Customise your target roles and location inside the prompt before sending
- 8** Hit send and wait 1-2 minutes — Claude will search live job boards for you
- 9** Review the results table and start applying to the most relevant matches

PRO TIP

Web search must be ON (Step 4) — without it Claude cannot search live jobs.

If you do not see the + icon, look for the paperclip or tools icon in your chat bar.

SECTION 02

Exact Prompt — Copy and Paste This

Do not change the structure of this prompt. Only fill in the two bracketed parts: your **target roles** and your **target location**.

ONLY CHANGE THESE TWO PARTS

[ADD YOUR TARGET ROLES] — e.g. "Product Manager, Business Analyst, Operations Manager"

[ADD TARGET JOB LOCATION] — e.g. "Bangalore" or "Remote" or "Mumbai, Remote"

I am attaching my resume in this chat. Act as a strategic job search expert and career analyst. First, analyze my resume deeply to understand my experience, skills, achievements, industries, and seniority level. Based on this analysis, identify the most suitable roles for my profile.

I am currently targeting the following roles:

[ADD YOUR TARGET ROLES]

I am looking for opportunities in:

[ADD TARGET JOB LOCATION]

After analyzing my resume, perform a live job search across the web and major job platforms, including:

- LinkedIn Jobs
- Naukri
- Indeed
- Company career pages
- Wellfound (AngelList)
- Other credible startup or job boards
- Use apify connector to scrape HR or Hiring manager contact requirement if needed.

Only include jobs that meet the following criteria:

- Posted within the last 7 days or maximum past 1 month
- Match my skills, experience level, and target roles
- Located in [location] or remote roles available for this location

Provide at least 20 relevant job opportunities in a structured table format with the following columns:

- Job Title
- Company Name
- Location
- Direct Application Link
- Job Posting Date
- Required Experience
- Key Skills Required
- Salary Range (if available)
- Hiring Manager / Recruiter Name (if available)
- Hiring Manager LinkedIn Profile (if available)
- Company LinkedIn Page URL
- Source (LinkedIn / Naukri / Company Career Page / etc.)

Additionally:

- Briefly explain why each role is a good match for my resume
- Highlight any skills or keywords I should add to my resume to improve my chances for these roles.

Ensure the results are relevant, recent, and actionable so I can directly start applying.

SECTION 03

Important Tips

These tips will make sure you get the best results from this method every time.

Always customise before sending

Fill in your actual target roles and location every time. Generic inputs give generic results.

Use your most updated resume

Claude reads your resume to understand your profile. An outdated resume = less accurate job matches.

Don't blindly apply to everything

Claude gives you 20+ matches — prioritise the ones where your skills match 80%+ of the requirements.

Use the suggested keywords

Claude will tell you which keywords are missing from your resume. Add them before you apply — it directly improves your ATS score.

Double-check job links before applying

Live job links can expire. Always click through to confirm the job is still open before investing time in an application.

Use this method every week

Job markets move fast. Run this search once a week to stay on top of fresh openings that match your profile.

IMPORTANT

Claude results are AI-generated. Always verify job listings directly on the company website before applying. Links and salaries may vary.

You are all set. Go get that job.
